## HE WILL NOT RESIGN

Alger Will Retain His Cabinet Position Although a Senatorial Candidate.

## GENERAL TALKED FREELY

Governor Pingree, Says the Secretary, Is For McKinley First, Last and at all Times—Not Prepared to Discuss the Philippine Situation or Whether More Troops Would Be Sent Otis.

Washington, June 26.—Secretary Alger returned to the city last night after an absence of three weeks, during which he visited New England and afterwards spent some time at his home in Michigan. He says he has enjoyed his outing very much and appears benefited by the change.

To callers at his house during the evening the secretary talked freely regarding his announced candidacy for senatorial honors and of the printed statements of the probability of his leaving the cabinet because of his alliance with Governor Pingree, who, it has been stated, is opposed to the administration of President McKinley. He made it plain to his questioners that he did not propose to resign on this account as he does not consider his candidacy for the senate any reason why he should not continue to hold his position as a member of the cabinet. Governor Pingree, the secretary added, is for President McKinley, first, last and all the time.

During his absence from the city the secretary has been kept fully informed of all dispatches which have been received from General Otis regarding the situation in the Philippines. He was not prepared to say anything last night for publication respecting what, if any, increase is to be made to the troops under Otis' command; that matter will be talked over with the president as soon as he returns to Washington from his New England visit. The secretary, in conclusion, said he had no knowledge of a dispatch alleged to have been received from General Otis, in which that officer intimated his inability to conquer the Philippines with the force under his command, and that he would be obliged to abandon the ground already taken unless reinforcements were quickly sent. All dispatches from General Otis were forwarded to him, he said, and he had seen nothing of the kind mentioned.

## GROWING OF FIGS

Agricultural Department Tells of the Experiments in California.

Washington, June 26.—The agricultural department has issued a bulletin treating of the probable success of the efforts of the department to establish the Smyrna fig industry in California. It appears that the fruiting of the Smyrna fig is dependent upon the introduction from south Europe and the establishment in California of a little insect which fertilizes the fig.

Experimental introductions of the insect were thereupon begun, and some of them brought over in 1898 have succeeded in penetrating the closed flowers of the capric figs growing at Fresno, making the first step of the experimental work a success. The bulletin added:

"Since the insect has maintained itself for an entire year there is reason to suppose that it will continue to breed and that California in the near future will be able to place a fig upon the market which will possess the same superior flavor as that which has given the imported Smyrna figs their pre-eminent commercial rank."

Thirty-Five Cases Have Developed as Santiago—Fife Deaths.

cut, and his wife follows with delicious ice cream. Presently the man has that unpleasant feeling in the stomach which is the beginning of a dyspeptic condition. His nerves become unstrung, and he makes mother, wife and daughter miserable with his moodiness. His liver is torpid. His blood is being poisoned by the impurities which the broken-down organs are incapable of taking care of. He is in just the condition to receive the germs of any disease. He is a shining mark for the germs of consumption. To eat disease too, he becomes a victim one day or another, unless saved by the use of such a remedy as Dr. Pierce's Golden Medical Discovery. This will put him on his feet again. It is a tonic and appetizer, a blood purifier, a liver invigorator, a nerve restorer, a strengthener for the weak, a cure for weak and bleeding lungs, bronchitis, lingering cough and kindred ailments, which if neglected or improperly treated lead up to consumption. Perhaps you think no medicine can cure so many ailments, but when you remember that all these diseases start in the stomach and nutritive system, and that "Golden Medical Discovery" corrects that fault or derangement at the starting point, it isn't so strange after all that it does so much.

Mrs. Ellen E. Bacon, of Shutesbury, Franklin Co., Mass., writes: "I firmly believe I should be in a very bad state now if I had not taken Dr. Pierce's Golden Medical Discovery. Prior to September 1897, I had been doctoring for my stomach trouble for several years, going through a course of treatment without any real benefit. In September 1897, I had a very bad attack of indigestion, and I commenced to eat but little. I commenced to lose weight, and I was in a very bad state. I took Dr. Pierce's Golden Medical Discovery, and in a short time I could eat and work. I have gained twenty pounds in two months."

## ROUGH RIDERS

Eld Memorial Services at Their Reunion at Las Vegas.

Las Vegas, N. M., June 26.—Memorial services were the first thing on the rough riders' reunion programme yesterday. They were held at the Duncan opera-house and Rev. Thomas A. Uzzell, pastor of the People's Tabernacle of Denver, preached the memorial sermon. He said that the soldier who is forced to remain behind is as worthy of praise and recognition as the man who is at the front. The rough riders, he said, have by their acts at San Juan and the fighting around Santiago succeeded in writing one of the brightest pages in American history. Their deeds would be read by coming generations and would endow a new view of country an admiration for true heroism.

## TWISTER

Storm at Bradley, Neb., Does Considerable Damage.

Bradley, Neb., June 26.—A twister struck this village yesterday and partially wrecked it. The storm, which came from the north, first struck a 2-story brick block occupied by a drug-store and a general mercantile store, entailing a loss of \$10,000. Floyd A. Walworth was caught in the debris and seriously hurt. The postoffice was totally wrecked, Corlies' general store badly wrecked and numerous barns and outbuildings demolished. The ground was plowed up by the wind and some stock killed.

## HEAVY RAIN FALL

A Pourdown at Ravenna, Neb., Floods Cellars and Damages Merchandise.

Ravenna, Neb., June 26.—Five inches of rain fell here between 5 and 7 o'clock last evening. The streets were raging torrents of water, sidewalks are afloat, many cellars in the lower part of town are flooded and much damage has been done to merchandise.

A washout is reported at the east end of the Burlington yard, and a number of washouts have occurred between here and Broken Bow. Another large one is reported near St. Michael, east of Ravenna.

The Russians themselves do not expect a majority for their disarmament proposals, which are not advanced seriously."

A., has submitted its report to Colonel Fordwood, chief surgeon department of California, and he in turn has forwarded the report to General Shafter with the recommendation that Captain Ware be ordered before a retiring board.

## ANTITRUST MEETING

To Consider Trusts and Combinations of Capital and Their Control.

## TO CONVENE AT CHICAGO

Under the Auspices of the Civic Federation—Governors Who Have Accepted Invitations—J. Sterling Morton's Views on the Question—Trusts Will Fail and Will Harm No One.

Chicago, June 26.—Secretary Easley of the Civic federation of Chicago, under whose auspices a conference will be held in Chicago, Sept. 13-16, to consider trusts and combinations and legislation for their control, has received hundreds of letters from prominent men all over the country accepting invitations to be present at the meeting. Among those who have signified their intention of attending the conference in person or who will be represented are: Governors Pingree of Michigan, Roosevelt of New York, Stanley of Kansas, Sayers of Texas, Mount of Indiana, Fancher of North Dakota, Thomas of Colorado, Tanner of Illinois, McLaurin of Mississippi, McMillan of Tennessee, Pointer of Nebraska and Lee of South Dakota.

In acknowledging the receipt of an invitation to attend, ex-Secretary of Agriculture J. Sterling Morton of Nebraska, says:

"Trusts which are over capitalized are born of the machinations of shallow and impractical men. They will fail and no one be harmed except those whose credulity led them to invest in their securities."

"There is much misapprehension as to incorporated capital in the United States. Oratorical vagaries have endeavored to make common people believe that incorporations are not subject to economic laws of competition and that the relation of supply to demand is not the sole regulator of values. The fact, however, remains that money invested in manufacturing or in railroads belonging to incorporations is no stronger, no better and no more exempt from the operation of commercial laws than the money which is owned by individuals. There need be, in my judgment, no apprehension as to the trusts crushing out all competition. With the exception of the oil trust and the sugar trust, failure among trusts has been universal. The whisky trust, the tobacco trust and all the other trusts of any importance up to date, except those that have been formed very recently, have been complete failures. These failures have come, first, from overcapitalization, and, second, from mismanagement."

Intelligent competition can enter the field against any trust on earth except one which has a natural monopoly (by this I mean one which, like the Standard Oil company, owns the only oil producing lands in the country) and successfully put its products upon the market with the sympathy of the consumer all on its side. By this I mean that outside of the trusts copartnerships and stock companies may be formed with capital, energy and ability to successfully take the market against any and all trusts' products, except those which are the result of a natural monopoly."

"What can be accomplished by legislation or regulatory laws, I cannot say nor do I look to such enactments for a remedy for evils that may grow out of trusts. Of course, it is fashionable, it is epidemic, to denounce all large aggregations of capital as 'trusts.' This mania will at last exhaust itself and the country will find that those who have been damaged by trusts were those who bought their securities for more than they were worth."

Dr. Lyman Abbott of New York says: "I think what we most need on the subject of industrial, commercial, labor and transportation combinations is just what your letter indicated this meeting will endeavor to secure: Light, not heat. What we need to understand and what only experience can teach us, is the relation between competition and combination, the one the centrifugal, the other the centripetal force of society. He who believes only in competition will logically be led to socialism; he who believes only in combination will logically be led to nihilism. Neither of these results can possibly furnish the solution of the problems which now confront us. We must learn how to secure the advantages of combination without destroying the individual; to maintain brotherhood in practical forms without sinking, obscuring or belittling personality."

## BOAT CAPSIZED

St. Petersburg, June 26.—The Transcaspian region of Asiatic Russia, which is under the administration of the governor general of the Caucasus, Prince Bariatinski, is threatened with famine, owing to the prolonged drought and a plague of locusts.

## PECULIAR MISSION

Of a French Cruiser Causes Speculation at Brest.

Brest, France, June 26.—The French first class cruiser Tage put to sea last evening, the official explanation being that she has gone to experiment with carrier pigeons. She is, however, a much larger cruiser than the Sfax, which is bringing Captain Dreyfus, and the dispatch of such a big vessel with carrier pigeons is quite unprecedented.

Usually a torpedo boat is sent, and the opinion, therefore, gains ground that the Tage has gone to meet the Sfax and to take Captain Dreyfus on board. The pigeons can be used to announce the transfer, and the Tage might proceed to another port to land the prisoner.

As against this theory and as an indication that the landing of Dreyfus will be effected here, there is the fact that a large number of gendarmes from the country around Brest are arriving or expected to arrive tonight.

The treasurer of the famous league of the French Fatherland reached Brest last evening from Paris, and, as this organization has been at the bottom of the anti-Dreyfus movement, it is thought he has probably come to organize a demonstration.

## Several Changes Made.

Paris, June 26.—At the cabinet council yesterday M. Loubet, the president, signed orders making the following changes: M. Bertrand, procurator to the appeal court, and M. General Harteschildt, General Rogot, Colonel Saxe and Colonel Cornubert are transferred to other garisons.

## GREAT BRITAIN

Bringing the Transvaal Complication Around to Her Liking.

London, June 26.—The firm attitude of Great Britain appears to be having the desired effect in the Transvaal complications. The latest cablegrams from South Africa talk of various semi-official missions for negotiations between Cape Town, Bloemfontein and Pretoria aiming to arrange a franchise compromise on a basis of five or six years past residence.

President Kruger is represented as agreeable to some such arrangement, but is finding considerable difficulty in handling his own conservative elements. In a reported interview he is alleged to have said regarding the war rumors that mountains were being made out of mole hills and that he was firmly convinced that Queen Victoria would never allow "Letting loose the dogs of war" over South Africa.

## BUBONIC PLAGUE

The Nippon Maru Carries the Disease to Honolulu.

St. Louis Pugilist Dies Without Regaining Consciousness.

Chicago, June 26.—"Dutch" Neal, the St. Louis pugilist who fell unconscious in the ring last Wednesday night in the sixth round of a glove contest with Harry Peppers, the California middleweight, died yesterday without having regained consciousness. Neal's death is attributed to a blood clot on the brain, resulting from over-exertion while in an unfit physical condition. Peppers was arrested as soon as it became apparent that Neal's condition was serious and is now in jail in default of \$2,000 bonds. The battle was a 6-round contest for a purse.

\*MONDAY, JUNE 26, 1899.

Really now, how many democrats in Jackson county, though they are inclined to find fault with President McKinley, are longing for a return of the good times we had from '93 to '96 under the Wilson tariff reform law?

The legislature that will elect Senator McMillen's successor has not yet been chosen, so the people need not worry about the immediate probability of Secretary Alger resigning to look after his candidacy.

The Kentucky democratic convention adjourned Saturday night without making a nomination. Since adjournment the friends of Wat Hardin say their favorite has been gaining ground and that he will yet triumph over the Goebel forces.

Over in Ohio the democrats are urging a manufacturer of wheelbarrows to become a candidate for governor. That would indicate that they do not mean to put up a very lively race for speed is not characteristic of that vehicle.

WE HAVE before us a copy of the Wyoming State Democrat, C. W. Burkart publisher. The initial number of this new paper appeared Saturday and does credit to its promoters. It is an eight column folio and one page is right well filled up with democratic editorials. But Charley has a peculiar liking for the doctrines of Bryan and will spare no amount of space in getting these doctrines before his readers. Here is success to our old neighbor.

## The Right Sentiment.

In the course of his remarks at the reunion of the Rough Riders Colonel Roosevelt had occasion to refer to the Philippine problem, expressing a sentiment that will find approval throughout the country except with the bitter partisan who makes it his business to find fault. Colonel Roosevelt said:

"Let us not forget our comrades who this summer are facing all we faced last summer. Let us not forget the gallant men, the regulars and volunteers, who are upholding the honor of the flag and the interests of the nation in the Philippines. Surely there is not one of us whose veins have not tingled with pride as he read of the gallantry of those men; and I suppose few of us have not thought at times that we should like ourselves to fight besides Lawton now as we fought beside him last July, and to see if the Rough Riders could not do their share of the work now done by the splendid men who follow Funston, Hale and the other daring leaders, who during the last six months have added so many new pages to the honor roll of American history.

To our shame be it said there are men in this nation so indifferent to the country's honor, so lukewarm in patriotism and courage, that they would let all the work of these men go for naught—let their blood be spilled in vain. But the heart of our nation is sound, and the puny folk who deem it otherwise are woefully mistaken in their countrymen. Where our flag has been raised it shall not be hauled down. If any difficulty seems greater than we expected it merely means that we shall exert a little more strength in overcoming it."

The wedding was private, only two or three immediate friends being present. After the ceremony they went to their newly furnished home, 317 Mill street, where they will be at home to their many friends. The groom is the popular barber on St. Louis avenue and has a host of friends with whom the REPUBLICAN joins in extending hearty congratulations.

LUCAS—LESLIE.

George Lucas and Miss Nancy Leslie, respected young people of Hamilton township were united in marriage Sunday evening June 25, at Cortland by Rev. J. L. Shroyer.

## Probably a Mistake.

In the Indianapolis Journal of this date the following paragraph appears: "Michael Carlos of the No. 4 truck company, received word of the death of his brother, Patrick, near Brownstown yesterday. The young man, who was only sixteen years old, was out driving and his horse ran away, throwing him from the buggy and instantly killing him." So far we have been unable to confirm the report.

## In the Wrong Office.

This afternoon a well dressed young man stepped into the city offices and asked City Treasurer Clark if he could issue a marriage license for him. Mr. Clark told him that as the city treasurer he could not, and advised him to call on Capt. Long at Brownstown. The stranger passed out and made inquiry of the way and the time of trains to the county seat.

## The Jerrell Trial.

Saturday evening a telegram was received here from Judge New that the Jerrell damage suit would have to be postponed until Friday on account of the inability of Judge Stannard to hear it. This morning word came that the case would come up today as first planned and that the Seymour people must be there ready to enter the trial. It is understood that since Judge Stannard could not hear the case Judge New has appointed Hon. Lincoln Dixon of North Vernon, who will act in his stead.

Forty-one people went down to Scottsburg from here today to attend the trial and seventeen more will go tomorrow. The lawyers for the plaintiff are A. N. Menden, F. W. Wesner, Geo. F. Lawrence and some Scottsburg lawyer. For the city the lawyers are John M. Lewis, W. K. Marshall, O. H. Montgomery and Jos. H. Shea. The case will be hard fought on both sides.

## A GREAT WRESTLER.

His Encounter With the Czar and His Ignoble Reward.

One of the stories of Peter the Great which are current at the court of St. Petersburg is of the great czar's wrestling match with a young dragon. Once in the Imperial palace—the story goes—Peter was at table with a great many princes and noblemen, and soldiers were posted within the hall. The czar was in a joyous mood, and, rising, called out to the company: "Listen, princes and boyars! Is there among you one who will wrestle with the czar?" There was no reply, and the czar repeated the challenge.

No prince or nobleman dared to wrestle with his sovereign. But all at once a young dragon stepped out from the ranks of the soldiers on guard. "Listen, Orthodox czar," he said. "I will wrestle with thee!" "Well, young dragon," said Peter, "I will wrestle with thee, but on these conditions: If thou throwest me, I will pardon thee; but, if thou art thrown, thou shalt be beheaded. Wilt thou wrestle on those conditions?"

"I will, great czar," said the soldier. They closed, and presently the soldier with his left arm threw the czar and with his right he prevented him from falling to the ground. The sovereign was clearly beaten. The czar offered the soldier whatever reward he should claim, and he ignobly claimed the privilege of drinking free, as long as he lived, in all the inns belonging to the crown. What became of him history does not say.

## Odd Names of Maryland Farms.

The curious names given to tracts of land by the owners in olden times are illustrated in a conveyance encountered by a clerk in the record office recently while engaged in reorganizing the indexes. The deed in question is recorded in Liber W. G., No. 99, folio 57. It was executed in 1790 and conveyed from Joshua Stevenson to Richard Gettings five tracts of land in Baltimore county, the consideration being \$200. The name of each tract and its dimensions are as follows: My Sweet Girl, My Friend and Pitcher, 62 acres; Here Is Life Without Care and Love Without Fear, 41½ acres; The Unexpected Discovery, 262 acres; Hug Me Snug, 15 acres, and Stevenson's Cow Pasture, With Little A in Content, 22 acres.—Baltimore Sun.

## He "Pecked" Too.

Mrs. Blank found herself in a rather embarrassing situation one day when she was dining for the first time at the home of a minister. Opposite her sat the minister's little boy, a sharp eyed little fellow of 4 years. While his father was asking a somewhat lengthy blessing the lady elevated her eyelids slightly and caught the eye of the little fellow opposite her. The instant his father said "Amen" the boy pointed an accusing finger toward Mrs. Blank and cried out shrilly: "She pecked, papa! she pecked!"—Harper's Bazar.

## Clear Evidence.

"Charlie Youngpop's baby is beginning to talk now."

"Has Charlie been boring you with stories about it?"

"No, but I sat near him at the luncheon counter today, and I heard him say absently to the waiter girl, 'Dim me a jinky water, please.'"—Catholic Standard and Times.

## A New York Physician Advises His Patient to Take Lydia E. Pinkham's Vegetable Compound.

[LETTER TO MRS. PINKHAM NO. 73395]  
"DEAR MRS. PINKHAM—I have three children and suffered with falling of the womb and flooding. My physician scraped the womb, still the flooding continued and I was no better. At last he advised me to use Lydia E. Pinkham's Vegetable Compound. Then I thought I would write to Mrs. Pinkham for she could advise me better than any one if I was to take her remedies. I received her reply and followed all her directions and I am very glad to send you this testimonial, for Lydia E. Pinkham's Vegetable Compound is just what it is recommended to be. I advise all women who suffer from these complaints to try it."—MARIE LEMP, 108 2d AVE., NEW YORK CITY.

"A year ago I was a great sufferer from painful menstruation. I could not lie down or sit down for the dreadful pain each month. I wrote to you and took twelve bottles of Lydia E. Pinkham's Vegetable Compound, and it has helped me so I cannot find words to express my gratitude toward Mrs. Pinkham. I am to-day well and hearty."—MISS JOIE SAUL, DOVER, CLARE CO., MICH.

More than a million women have been helped by Mrs. Pinkham's advice and medicine.

## A ROPE OF WORMS.

The Curious Procession That May Be Seen In Norway Forests.  
In the deep pine forests of Norway the woodcutters sometimes find a serpentine object nearly 50 feet long crawling slowly over the ground. If they did not know that it was made up of millions of little worms, they might be frightened by its peculiar appearance. These worms, called the sclar, gather during July and August in large numbers preparatory to migrating in search of food or for change of condition. When setting out on this journey, they stick themselves together and form a huge serpentine mass, often reaching a length of between 40 and 50 feet and several inches in thickness.

As the sclar is only on an average about three thirty-seconds of an inch in length and barely wider than a fine needle, the number required to compose a line of the size above mentioned is enormous. Their pace is very slow, and upon meeting an obstacle, such as a stick or stone, they will either writhe over or around it, sometimes breaking into two bodies for this purpose.

M. Guerin-Meneville, a celebrated French naturalist, says that if the rear portion of this wonderful snake-like procession be brought into contact with the front part and a sort of circle formed the insects will keep moving round and round in that circle for hours and hours without apparently noticing that they are not getting on in their journey. If the procession be broken in two, the portions will reunite in a short time.

The Norwegian peasants, when they meet one of these trains, will lay some article of their clothing, such as a belt or handkerchief, on the ground in front of it. If the procession passes over it, it is regarded as a good sign; but if it makes a way round, the reverse is believed.—Chicago Record.

## PLAYING POWER.

Just How Great a Force Is Expended on the Piano.

The amount of power expended on playing on a piano has recently been figured out in a way which, if not altogether accurate, is at least interesting. Commenting on the statement that it really requires more force to sound a note gently on this instrument than it does to lift the lid of a kettle, says Woman's Life, it is easy to verify it, if one takes a small handful of coins and piles them on a key of a piano.

When a sufficient quantity is piled on to make a note sound, they may be weighed, and the figures will be found to be true. If the pianist is playing fortissimo, a much greater force is needed. At times the force of six pounds is thrown upon a single key to produce a solitary effect.

With chords the force is generally spread over the various notes sounded simultaneously, though a greater output of force is undoubtedly expended. This is what gives pianists the wonderful strength in their fingers that is often commented on.

One of Chopin's compositions has a passage which takes two minutes and five seconds to play. The total pressure brought to bear on this, it is estimated, is equal to three full tons. The average "tonnage" of an hour's playing of Chopin's music varies from 12 to 84 tons.

## The Landlord Outwitted.

In the main hall of one tenement, on the ground floor, we counted 17 children, says Jacob A. Rils in The Atlantic. The facts of life here suspend ordinary landlord prejudices to a certain extent. Occasionally it is the tenant who suspends them.

The policeman laughed as he told me of the case of a mother who coveted a flat into which she well knew her family would not be admitted. The landlord was particular. She knocked, with a troubled face alone. Yes, the flat was to let. Had she any children? The woman heaved a sigh. "Six, but they are all in Greenwood."

The landlord's heart was touched by such woe. He let her have the flat. By night he was amazed to find a flock of half a dozen robust youngsters domineering under his roof. They had indeed been in Greenwood, but they had come back from the cemetery to stay. And stay they did, the rent being paid.

## EDISON'S INITIATION.

Dramatic Climax to His Introduction to Chewing Tobacco.

"A long time ago, when I was a mite of a boy," said Edison, "I, with two other little fellows, had saved up a lot of scrap iron and tin and zinc which we meant to sell when the holidays came around. There was a large boy in the neighborhood I think he must have become a bunko stealer afterward who knew of our hoard. One day when we had been in swimming he came to us and said:

"Say, you fellows, if you will give me that tin and iron and stuff you have, I'll teach you how to chew."

"The proposition struck us as being very fair, particularly as he agreed to furnish the tobacco. Well, we were quite willing, so he brought some Canadian cut down to a sand bank by the river. He divided the stuff into three parts and gave us each one. Then he said:

"Now you must do exactly as I say, and you must do it right away, or you'll never learn to chew."

"Now, then," he shouted, 'hold up!'

"We held it up."

"Put it in your mouth!" he yelled.

"We put it in."

"Chew!" he hissed dramatically.

"We worked away at a great rate."

"Swallow it!" he screeched.

"We gulped it down, and then that young rascal fairly rolled down the bank with laughter, while we soon rolled down the other side, sicker, I suppose, than any of us had been in our lives before or since. One of the boys nearly died, and they had a very serious time with him. That was my first experience with tobacco."—Philadelphia Inquirer.

## Seizing the Opportunity.

"Miss Amanda," said the somewhat elderly but well preserved bachelor to the sparkling young woman with whom he occasionally spent an evening. "I think it is a shame the way you treat that young Frankson. If I were he I wouldn't let you play fast and loose the way you do. I would simply come and carry you off."

"If you were he, Mr. Upagain," she replied, with downcast eyes, "perhaps it wouldn't be necessary to carry me off."

Upon which hint Mr. Upagain immediately spoke, and the invitations are out.—Chicago Tribune.

## A Fair Jury.

In a suit between father and son before a Hoosier justice of the peace the sextet comprising the jury came in after three hours' deliberation with the following impartial verdict: "We the jury agree to find judgment for neither plaintiff nor defendant and find that each pay half the costs." It is said the verdict struck every one as being so unusually fair that even the parties to the action were satisfied.—Case and Comment.

## Questions of Duty.

"I intended," said the German emperor, "to be guided in this matter entirely by my duty."

"Yes, your majesty," answered the official, "I was desiring to call your attention to the small amount of duty we have been in the habit of collecting on these American articles."—Washington Star.

## Drink, Grain-O.

After you have concluded that you ought not to drink coffee it is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and taste like the finest grades of coffee and costs about 1/4 as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25c.

W. H. WENTE.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate with out solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. MARY A. BEARD, Claremore, Ark. For sale by C. W. Milhous.

#### Another Swindling Scheme.

A new swindling scheme has been practiced and discovered in Shelby county, and an attempt may be made to practice the scheme elsewhere. There two strangers appeared, and offering a high price for wool, would induce the farmer to sell his clip to them, and then make payment by check on some Indianapolis or other bank. The check would be paid by the local bank and sent for collection to the bank upon which it was drawn, when it would be returned indorsed "no funds."

The New York fashion letter in the current issue of Harper's Bazar discusses the subject of shirts and waists in full, presenting information which will be helpful to every woman. "Sleeves" is the subject treated in the Home Dressmaking series, and the making of Tam Crows and Puffs in the Practical Talks on Millinery. Another very valuable feature of the fashion columns is Summer House Gowns, illustrated with cuts of three especially artistic gowns.

In the American Monthly Review of Reviews for July the editor reviews the work of our delegation at The Hague up to date, presenting the latest phases of the arbitration question, with some consideration of its bearings on the present international situation. Among other topics discussed in "The Progress of the World" this month are "tariff trusts" as a political issue, the Dreyfus vindication, the war in the Philippines, and the newly elected college presidents.
